件名: UNITED24: record-breaking donations since the counteroffensive, ALV devices are saving children's lives, and Patron celebrates Rescuer's Day

UNITED24

DIGEST
12-19 SEPTEMBER

Greetings from UNITED24!

Since the beginning of September, Ukrainian defenders have liberated over 4,000 square kilometers - almost the entire Kharkiv Oblast. All Ukrainians are obviously happy about the news, but we couldn't have imagined how happy it would make you; our community supported us with both letters and donations. Contributions have increased by 2,5 times since the counter-offensive was announced, and tripled after the President said that the Ukrainian flag would fly over Balakliya again. We are infinitely grateful to you and your faith in Ukraine!

Now, however, Ukraine faces a huge task — to help the people who've lived under Russian occupation for half a year, inside destroyed houses, without light, heat or basic medical care. Support the Ukrainian doctors who are currently working in de-occupied territories: <https://u24.gov.ua/>.

And now, the news!

Thanks to your donations, we have collected more than **\$185,883,509** since the start of the UNITED24 platform. Last week, we received your letters, photos and words of support. This week, we are starting a new format on social media, where we will talk about extraordinary people helping Ukraine. If you want to share your story and inspire others — by all means, go ahead!

We are also sending you thank-you messages from doctors.

[Watch this video](#) about five ALV devices that are saving the lives of children.

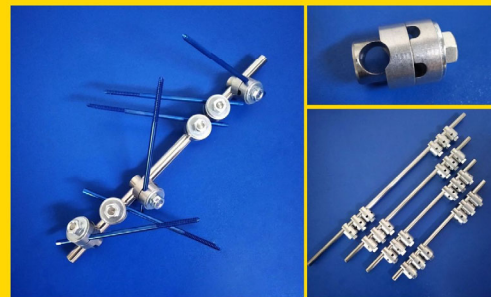

Premature babies cannot breathe on their own — they need neonatal ALVs. Please, donate to save our smallest Ukrainians: <https://u24.gov.ua/donate/humanitarian> .

We've purchased 4,852 external fixation devices (EFDs), worth 14,645,570 UAH (\$400,152).

It is difficult to overstate the importance of EFDs. They help save people with blast injuries, complex gunshot fractures and limb trauma.

МЕДИЧНА ДОПОМОГА: ЗАКУПІВЛЯ
4852 АПАРАТІВ ЗОВНІШНЬОЇ ФІКСАЦІЇ

24 reanimobles have already been sent to save lives. Overall, 82 ambulances have been purchased under Olena Zelenska's initiative.

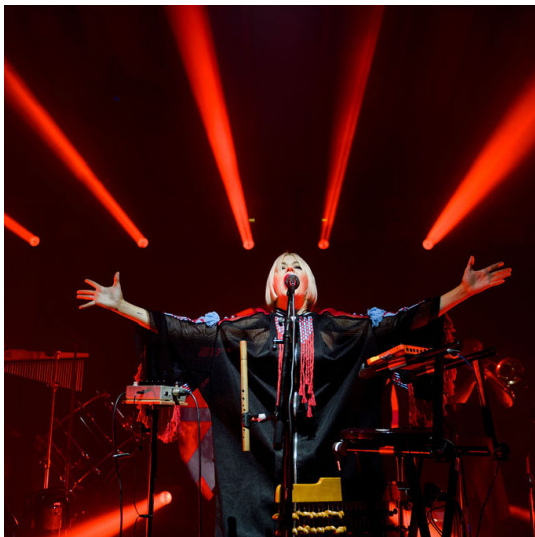

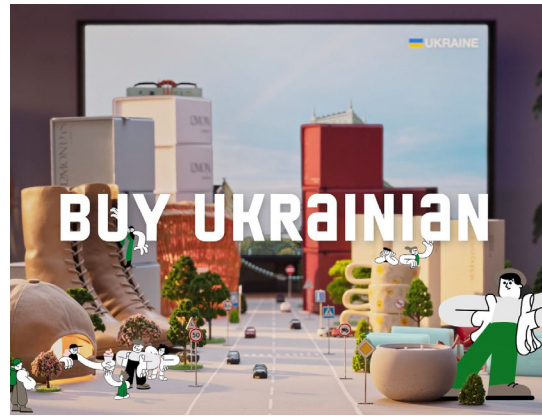

[Listen to Olga Seklii](#), an intern at the Kharkiv Center for Emergency Medical Aid and Disaster Medicine, about the importance of reanimobles.

Now the world can access Made with Bravery, an official Ukrainian marketplace.

Here, you can find products made in Ukraine by Ukrainian manufacturers. 5% from the sale of each item, as well as 5% from visa transactions, will be donated to Rebuild Ukraine via UNITED24.

Every item purchased at Made with Bravery is a brick towards restoring Ukrainian infrastructure. You can help by shopping here:

<https://shop.brave.ua/> .

Ukrainian stars continue to perform and raise funds towards Medical Aid for Ukraine.

The Ukrainian electro-folk band, ONUKA, gave an outstanding performance at 'Ukrainian Night. Code of freedom,' organized by NEAR UA. 1,000,000 UAH was raised during the event. Half of this sum will go towards the purchase of external fixation devices via UNITED24.

MONATIK is embarking on a world charity tour. Part of the proceeds from his ticket sales will go to Medical Aid via UNITED24. He'll visit Great Britain, Poland, Lithuania, Latvia, the Czech Republic, Hungary, USA, and other countries, as part of his 'ART Defence' tour. Don't miss your tickets for upcoming events: <https://monatikcorporation.com/en/tour> .

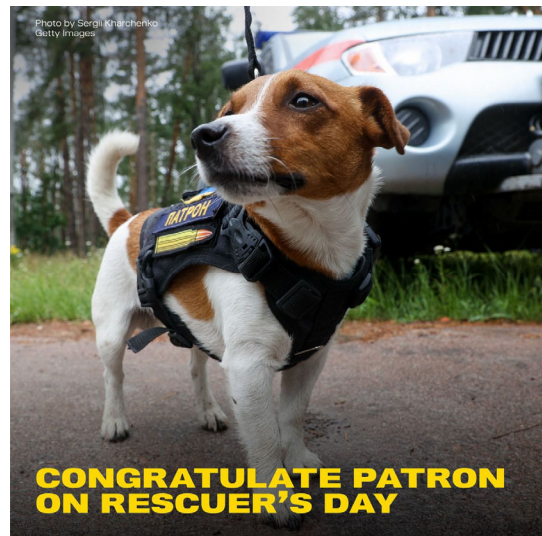

The digital assets exchange, ALP.COM, where users can buy, sell and exchange cryptocurrencies, held a charity giveaway: anyone could receive 150 UAH, and then transfer it to the Armed Forces of Ukraine via UNITED24.

In total, users have donated 700,000 UAH (19,125 USD).

On September 17, we celebrated Rescuer's Day in Ukraine. You can still congratulate the State Emergency Service's goodest boy, Patron, on his professional holiday.

Hundreds of thousands of square kilometers in Ukraine's territory are still contaminated with mines. Patron can't clear them all on his own. Purchase a charity stamp to help us raise funds for the Armtrac 400 demining vehicle: [Ukrposhta](#), [Amazon](#), [eBay](#), [Prom](#), [Kasta](#), [Rozetka](#).

ARMY OF DRONES NEWS

76 countries have already donated towards the Army of Drones.

Most donations come from the US, Ukraine, Canada, the United Kingdom, and Germany. The largest contribution of \$4,000 came from the United States. Recently, the number of payments in euros and dollars has increased significantly. This project unites Ukrainians and our foreign friends around a central, important goal —

to assemble the world's first drone army for Ukraine.

985 drones reinforced the Armed Forces of Ukraine.

Last week, 10 new UAVs were purchased for the Army of Drones. The total value of drones purchased is \$52,277,973.

Kamal Ravikant, author of the bestseller, 'Love Yourself Like Your Life Depends On It ', donated a drone for our Armed Forces.

Kamal has served in the US infantry, so he knows how important these devices are in combat. You can support the Army of Drones, or send us your own drone, over at: <https://u24.gov.ua/donation> .

Thank you for reading about, and supporting us. See you next Monday!

Yours truly,
UNITED24 team
